

It's not the same without you.

Hi Angela Liddy—remember us?

We'd sure like to get things back on track with you. And we'll prove it with Discover it®.

First of all, it delivers cash rewards big time:

- 5% cash back in categories that change throughout the year like gas, restaurants, movies and more, up to the quarterly maximum.* Signing up each time is free and easy.
- 1% cash back on all other purchases, without tiers.
- 5%–20% cash back and other deals at over 200 top retailers on our exclusive online shopping site, ShopDiscover™.

Next, we pulled out all the stops on service

For instance, late payments don't affect your APR. Lose a job and we'll lower your rate or find another way to help. And day or night, someone in the U.S. will take your call.

And you won't find us hung up on fees

There's no late fee on your first late payment. No foreign transaction fees or overlimit fees. And of course, still no annual fee.*

Bottom line—it looks out for you

Discover® is the only major credit card that puts your up-to-date FICO® Credit Score on your monthly statements* for free. So you can avoid surprises. Plus, we monitor every card purchase, every day. If something looks suspicious, we alert you right away by e-mail, phone or text. And you're never responsible for any unauthorized purchases on your Discover card account. Period.

Take a look at the chart we've included—and see why it's worth another try.
